USAGE INFORMATION

FOOD & DRINK: Should not be taken into any sports activity area. The exception is plastic sport bottles, containing water only, with a "one way valve" to prevent spillages onto the floor. Water spilling directly onto floors causes damage, ultimately lifting the edges of wooden slats.

SHOES: Correct, CLEAN, trainers with non coloured and non marking soles should be worn in all indoor activity areas. Clean shoes must be carried and changed into in the changing areas before entering any indoor activity area.

Note: **Training shoes worn outside are not acceptable.** Dirt and dust carried in from outside leaves the floors slippery and ultimately reduces the long term "life span" of our indoor floor areas.

I confirm that this booking can be accommodated in the PE block
